To Whom it may concern,

My name is Mark Cross, and I am an instructor at Berklee Online. I'm happy to recommend Joe Lankheet, who took my classes in Pro Tools 101 and Audio Post Production for Film and Television. Throughout both courses, Joe impressed me with his strong skills, quick understanding of complex concepts, and natural talent for sound.

He consistently earned top grades and has an advanced grasp of Pro Tools and audio post production, often exploring concepts and skills beyond what was required. What really stands out is his ear for detail and his ability to intuitively make sound decisions, qualities that will serve him well in the field of audio post production. Joe approaches projects with dedication and creativity, delivering work of exceptional quality.

I have no doubt that Joe has what it takes to succeed in this field. His technical skills, combined with his passion and work ethic, make him a great fit for any audio post production role he chooses to pursue. Feel free to contact me if you have any questions.

Best Regards,

Mark Cross
